

## Peer evaluations for "Build your own language: Sound inventories"

Use this form to evaluate the contribution of each of the members in your group. Remember that 25% of your final grade for the assignment is based on how you were evaluated by your fellow group members. Your evaluations here should therefore be honest, but also fair.

You should recognize that it will be easier for some people to grasp that concepts that we discuss in Linguistics 210. Your evaluation here should not be based on whether your fellow group members understand the concepts correctly. You should rather evaluate your fellow group members based on whether you feel that they have contributed according to their abilities.

Follow the instructions given very carefully. The accuracy of the grades for Linguistics 210 will depend partially on these evaluations.

Please complete a separate evaluation for each of your group members. Assuming that your group has three members, you will therefore submit this form two times.

Note that these evaluations will be handled completely anonymously. You will never see the individual evaluations that you were given by other members of your group. All that you will see is the average rating that you have received from all the other members of your group.

Even though the evaluation are anonymous, you should still be respectful and fair in your evaluations. Remember that your grade for Ling 210 depends partially on these ratings. Also remember that you are not only evaluating your fellow group members, but you are also being evaluated by them! If you are uncertain about whether to assign a lower or a higher rating, go with the higher rating.

Once you have submitted your response, you will not be able to edit it. So, make sure that your responses are accurate before submitting the form.
