Motivation for LIFE

What is LIFE?

- Patient/family advisors
- 8 health science schools
- 10 IPE student teams
- IPE faculty & support team

Conducted over 11 weeks

2-hour kick-off session

2 Patient-family interviews

- Pre-work and planning
 - Debrief and evaluation
-

2-hour closing session

Lessons learned

- Effective experiential learning can be done in a remote, virtual format
- Most students or student teams reported increased:
 - Awareness of own beliefs, culture, values, biases
 - Ability to work with a team and diverse patients
- Patient Advisors (100%) reported positive experiences
- Opportunities for program expansion with broader communities and populations
